

Piercing After Care !!!!

Always!!! wash hands with antibacterial soap before touching
new piercing !!!

then wash piercing with antibacterial soap (dove or dial) soaping
piercing area and rinsing with water .spray , or apply WOUND WASH
(piercing aftercare) on piercing 3-4 times a day for 2 weeks !!
on oral piercings you can gargle with the salt water inside and spray
outside mouth then switch to antiseptic mouth wash.

on oral piercings you need to put ice inside
mouth 3 times a day for 3 days

Any questions or problems call your piercer
Right away : Screaming ink tattoo (561-844-7172)
